OUR STORY

For over 65 years, we have had the honor of manufacturing school recognition products right here in the heartland. When the Covid-19 pandemic hit, our regular business was totally shut down for a couple of weeks, so we sent a note to our local hospital asking if they needed us to make some masks. And our mask business was off the ground.

Fast forward to today, we are proud to offer a sharp looking mask, that is very functional and most importantly - protective. There is full team of people in Pittsburg, Kansas ready to make your mask. Please do not hesitate to give us a call!

We hope that you and those in your district are safe and will be able to open again this fall.

Thanks,

The U.S. Awards Team
